

THINK GLOBAL ACT LOCAL!

DOWNTON PRIMARY SCHOOL Eco-Code

To show that we care for our environment we will:

- **Don't let food go to waste. Eat it all up!**
(Don't take more salad that you will eat.)
- Help the cleaners to keep our school clean and tidy.
- Pick up litter in school e.g. if you drop fruit or toilet paper pick it up and put it in the right bin!
- Pick up litter outside school with a responsible adult.
- Put all recyclables in the bins with white bags (paper, card, plastics).
- Put any landfill rubbish in the bins with black bags.
- Reduce the amount of paper you use and reuse it when you can. Use both side of the paper. (Have a scrap paper drawer in the classroom.)
- Save water and turn off the taps.
- Save energy by switching off lights and computers and the IWB; check when you leave rooms.
- Walk, cycle or scoot to school when possible.
- Use the compost bins in the playground for fruit and veg leftovers and the landfill bin for milk cartons.
- Care for our nature areas to help preserve and care for the wildlife.
- Use reusable water bottles!
