

**Downton Primary School  
Online Safety Policy  
September 2023**

**Dream, Believe, Achieve**

**Love, Peace, Joy**

# Online Safety Policy

Downton Primary School fully recognises its responsibilities for safeguarding and child protection.

<b>Policy agreed (date):</b>	<b>September 2023</b>
<b>Policy published (including on website) (date):</b>	<b>September 2023</b>
<b>Next review (date):</b>	<b>September 2024</b>

<b>Key Safeguarding Personnel</b>			
<b>Role</b>	<b>Name</b>	<b>Tel.</b>	<b>Email</b>
<b>Headteacher</b>	<b>Paula Carlton</b>	<b>01725 510556</b>	<b>Head@Downton-pri.wilts.sch.uk</b>
<b>Designated Safeguarding Lead (DSL)</b>	<b>Paula Carlton</b>	<b>01725 510556</b>	<b>Head@Downton-pri.wilts.sch.uk</b>

## Statement of intent

Downton Primary School understands that using online services is an important aspect of raising educational standards, promoting pupil achievement, and enhancing teaching and learning. The use of online services is embedded throughout the school; therefore, there are a number of controls in place to ensure the safety of pupils and staff.

The breadth of issues classified within online safety is considerable, but they can be categorised into four areas of risk:

- **Content:** Being exposed to illegal, inappropriate or harmful material, e.g., pornography, fake news, self-harm and suicide, and discriminatory or extremist views.
- **Contact:** Being subjected to harmful online interaction with other users, e.g., peer pressure, commercial advertising, and adults posing as children or young adults with the intention to groom or exploit children.
- **Conduct:** Personal online behaviour that increases the likelihood of, or causes, harm, e.g., sending and receiving explicit messages, and cyberbullying.
- **Commerce:** Risks such as online gambling, inappropriate advertising, phishing and/or financial scams.

The measures implemented to protect pupils and staff revolve around these areas of risk. Our school has created this policy with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all pupils and staff.

## 1. Legal framework

This policy has due regard to all relevant legislation and guidance including, but not limited to, the following:

- Voyeurism (Offences) Act 2019
- The UK General Data Protection Regulation (UK GDPR)
- Data Protection Act 2018
- DfE (2023) 'Harmful online challenges and online hoaxes'
- DfE (2023) 'Keeping children safe in education 2022'
- DfE (2019) 'Teaching online safety in school'
- DfE (2019) 'Searching, screening and confiscation'
- Department for Digital, Culture, Media and Sport and UK Council for Internet Safety (2020) 'Sharing nudes and semi-nudes: advice for education settings working with children and young people'
- UK Council for Child Internet Safety (2020) 'Education for a Connected World – 2020 edition'
- National Cyber Security Centre (2018) 'Small Business Guide: Cyber Security' This policy operates in conjunction with the following school policies:

DPS: Downton Primary School

- DPS Child Protection and Safeguarding Policy
- GPS Child-on-child Abuse Policy
- DPS Anti-Bullying Policy
- DPS PSHE Policy
- DPS RHSE Policy
- DPS Staff Code of Conduct
- DPS Behaviour Policy
- Disciplinary Policy and Procedures
- DPS Data Protection Policy
- Prevent Duty Policy
- Pupil Remote Learning Policy
- Technology Acceptable Use Agreement for Pupils
- Technology Acceptable Use Agreement for Staff
- Technology Acceptable Use Agreement for Volunteers

## 2. Roles and responsibilities

The governing board is responsible for:

- Ensuring that this policy is effective and complies with relevant laws and statutory guidance.
- Ensuring the DSL's remit covers online safety.
- Reviewing this policy on an **annual** basis.
- Ensuring their own knowledge of online safety issues is up-to-date.
- Ensuring all staff undergo safeguarding and child protection training, including online safety, at induction.
- Ensuring that there are appropriate filtering and monitoring systems in place.
- Ensuring that all relevant school policies have an effective approach to planning for, and responding to, online challenges and hoaxes embedded within them.

The headteacher is responsible for:

- Ensuring that online safety is a running and interrelated theme throughout the school's policies and procedures, including in those related to the curriculum, teacher training and safeguarding.
- Supporting the DSL and the deputy DSL by ensuring they have enough time and resources to carry out their responsibilities in relation to online safety.
- Ensuring staff receive regular, up-to-date and appropriate online safety training and information as part of their induction and safeguarding training.
- Ensuring online safety practices are audited and evaluated.
- Supporting staff to ensure that online safety is embedded throughout the curriculum so that all pupils can develop an appropriate understanding of online safety.
- Organising engagement with parents to keep them up-to-date with current online safety issues and how the school is keeping pupils safe.
- Working with the DSL and ICT technicians (Soft Egg LTD) to conduct termly lighttouch reviews of this policy.
- Working with the DSL and governing board to update this policy on an annual basis.

The DSL is responsible for:

- Taking the lead responsibility for online safety in the school.
- Acting as the named point of contact within the school on all online safeguarding issues.
- Undertaking training so they understand the risks associated with online safety and can recognise additional risks that pupils with SEND face online.
- Liaising with relevant members of staff on online safety matters, e.g. the SENCO and ICT technicians.
- Ensuring online safety is recognised as part of the school's safeguarding responsibilities and that a coordinated approach is implemented.
- Ensuring safeguarding is considered in the school's approach to remote learning.
- Ensuring appropriate referrals are made to external agencies, as required.
- Working closely with the police during police investigations.

- Keeping up-to-date with current research, legislation and online trends.
- Coordinating the school's participation in local and national online safety events, e.g. Safer Internet Day.
- Establishing a procedure for reporting online safety incidents and inappropriate internet use, both by pupils and staff.
- Ensuring all members of the school community understand the reporting procedure.
- Maintaining records of reported online safety concerns as well as the actions taken in response to concerns.
- Monitoring online safety incidents to identify trends and any gaps in the school's provision, and using this data to update the school's procedures.
- Reporting to the governing board about online safety on a termly basis.
- Working with the headteacher and ICT technicians to conduct termly light-touch reviews of this policy.
- Working with the headteacher and governing board to update this policy on an annual basis.

ICT technicians are responsible for:

- Providing technical support in the development and implementation of the school's online safety policies and procedures.
- Implementing appropriate security measures as directed by the headteacher.
- Ensuring that the school's filtering and monitoring systems are updated as appropriate.
- Working with the DSL and headteacher to conduct termly light-touch reviews of this policy.
- The ICT technicians are Soft Egg Ltd [School IT Support & Cloud Services | Soft Egg | ICT Support for Schools](#)

All staff members are responsible for:

- Taking responsibility for the security of ICT systems and electronic data they use or have access to.
- Modelling good online behaviours.
- Maintaining a professional level of conduct in their personal use of technology.
- Having an awareness of online safety issues.
- Ensuring they are familiar with, and understand, the indicators that pupils may be unsafe online.
- Reporting concerns in line with the school's reporting procedure.
- Where relevant to their role, ensuring online safety is embedded in their teaching of the curriculum.

Pupils are responsible for:

- Adhering to the Acceptable Use Agreement and other relevant policies.
- Seeking help from school staff if they are concerned about something they or a peer have experienced online.
- Reporting online safety incidents and concerns in line with the procedures within this policy.

### **3. Managing online safety**

All staff will be aware that technology is a significant component in many safeguarding and wellbeing issues affecting young people, particularly owing to the rise of social media and the increased prevalence of children using the internet.

The DSL has overall responsibility for the school's approach to online safety, with support from deputies and the headteacher where appropriate, and will ensure that there are strong processes in place to handle any concerns about pupils' safety online. The DSL should liaise with the police or children's social care services for support responding to harmful online sexual behaviour.

The importance of online safety is integrated across all school operations in the following ways:

- Staff and governors receive regular training
- Staff receive regular email updates regarding online safety information and any changes to online safety guidance or legislation
- Online safety is integrated into learning throughout the curriculum
- Assemblies are conducted on the topic of remaining safe online

#### **Handling online safety concerns**

Any disclosures made by pupils to staff members about online abuse, harassment or exploitation, whether they are the victim or disclosing on behalf of another child, will be handled in line with the Child Protection and Safeguarding Policy.

Staff will be aware that pupils may not feel ready or know how to tell someone about abuse they are experiencing, due to feeling embarrassed, humiliated, or threatened. Staff will be aware and recognise the importance of the presence and scale of online abuse or harassment, by considering that just because it is not being reported, does not mean it is not happening.

Staff will be aware that harmful online sexual behaviour can progress on a continuum, and appropriate and early intervention can prevent abusive behaviour in the future. Staff will also acknowledge that pupils displaying this type of behaviour are often victims of abuse themselves and should be suitably supported.

The victim of online harmful sexual behaviour may ask for no one to be told about the abuse. The DSL will consider whether sharing details of the abuse would put the victim in a more harmful position, or whether it is necessary in order to protect them from further harm.

Ultimately the DSL will balance the victim's wishes against their duty to protect the victim and other young people. The DSL and other appropriate staff members will meet with the victim's parents to discuss the safeguarding measures that are being put in place to support their child and how the report will progress.

Confidentiality will not be promised, and information may be still shared lawfully, for example, if the DSL decides that there is a legal basis under UK GDPR such as the public task basis whereby it is in the public interest to share the information. If the decision is made to report abuse to children's social care or the police against the victim's wishes, this must be handled extremely carefully and appropriate support provided to the victim.

Concerns regarding a staff member's online behaviour are reported to the headteacher, who decides on the best course of action in line with the relevant policies, e.g. the Staff Code of Conduct, Allegations of Abuse Against Staff Policy, and Disciplinary Policy and Procedures. If the concern is about the headteacher, it is reported to the chair of governors.

Concerns regarding a pupil's online behaviour are reported to the DSL, who investigates concerns with relevant staff members, e.g. the headteacher and ICT technicians, and manages concerns in accordance with relevant policies depending on their nature, e.g. the Behaviour Policy and Child Protection and Safeguarding Policy.

Where there is a concern that illegal activity has taken place, the headteacher contacts the police.

The school avoids unnecessarily criminalising pupils, e.g. calling the police, where criminal behaviour is thought to be inadvertent and as a result of ignorance or normal developmental curiosity, e.g. a pupil has taken and distributed indecent imagery of themselves. The DSL will decide in which cases this response is appropriate and will manage such cases in line with the Child Protection and Safeguarding Policy.

All online safety incidents and the school's response are recorded by the DSL.

## **4. Cyberbullying**

Cyberbullying can include, but is not limited to, the following:

- Threatening, intimidating or upsetting text messages
- Threatening or embarrassing pictures and video clips sent via mobile phone cameras
- Silent or abusive phone calls or using the victim's phone to harass others, to make them think the victim is responsible
- Threatening or bullying emails, possibly sent using a pseudonym or someone else's name
- Unpleasant messages sent via instant messaging
- Unpleasant or defamatory information posted to blogs, personal websites and social networking sites, e.g. Facebook
- Abuse between young people in intimate relationships online i.e. teenage relationship abuse
- Discriminatory bullying online i.e. homophobia, racism, misogyny/misandry.

The school will be aware that certain pupils can be more at risk of abuse and/or bullying online, such as LGBTQ+ pupils and pupils with SEND.

Cyberbullying against pupils or staff is not tolerated under any circumstances. Incidents of cyberbullying are dealt with quickly and effectively wherever they occur in line with the Antbullying Policy.

## **5. Child-on-child sexual abuse and harassment**

Pupils may also use the internet and technology as a vehicle for sexual abuse and harassment. Staff will understand that this abuse can occur both in and outside of school, off and online, and will remain aware that pupils are less likely to report concerning online sexual behaviours, particularly if they are using websites that they know adults will consider to be inappropriate for their age.

The following are examples of online harmful sexual behaviour of which staff will be expected to be aware:

- Threatening, facilitating or encouraging sexual violence
- Upskirting, i.e. taking a picture underneath a person's clothing without consent and with the intention of viewing their genitals, breasts or buttocks
- Sexualised online bullying, e.g. sexual jokes or taunts
- Unwanted and unsolicited sexual comments and messages
- Consensual or non-consensual sharing of sexualised imagery
- Abuse between young people in intimate relationships online, i.e. teenage relationship abuse

All staff will be aware of and promote a zero-tolerance approach to sexually harassing or abusive behaviour, and any attempts to pass such behaviour off as trivial or harmless. Staff will be aware that allowing such behaviour could lead to a school culture that normalises abuse and leads to pupils becoming less likely to report such conduct.

Staff will be aware that creating, possessing, and distributing indecent imagery of other children, i.e. individuals under the age of 18, is a criminal offence, even where the imagery is created, possessed, and distributed with the permission of the child depicted, or by the child themselves.

The school will be aware that interactions between the victim of online harmful sexual behaviour and the alleged perpetrator(s) are likely to occur over social media following the initial report, as well as interactions with other pupils taking "sides", often leading to repeat harassment. The school will respond to these incidents in line with the Child-on-child Abuse Policy.

The school responds to all concerns regarding online child-on-child sexual abuse and harassment, regardless of whether the incident took place on the school premises or using school-owned equipment. Concerns regarding online child-on-child abuse are reported to the DSL, who will investigate the matter in line with the Child-on-child Abuse Policy and the Child Protection and Safeguarding Policy.

## 6. Grooming and exploitation

Grooming is defined as the situation whereby an adult builds a relationship, trust and emotional connection with a child with the intention of manipulating, exploiting and/or abusing them.

Staff will be aware that grooming often takes place online and that pupils who are being groomed are commonly unlikely to report this behaviour for many reasons, including the following:

- The pupil believes they are talking to another child, when they are actually talking to an adult masquerading as someone younger with the intention of gaining their trust to abuse them.
- The pupil does not want to admit to talking to someone they met on the internet for fear of judgement, feeling embarrassed, or a lack of understanding from their peers or adults in their life.
- The pupil may have been manipulated into feeling a sense of dependency on their groomer due to the groomer's attempts to isolate them from friends and family.
- Talking to someone secretly over the internet may make the pupil feel 'special', particularly if the person they are talking to is older.
- The pupil may have been manipulated into feeling a strong bond with their groomer and may have feelings of loyalty, admiration, or love, as well as fear, distress and confusion.

Due to the fact pupils are less likely to report grooming than other online offences, it is particularly important that staff understand the indicators of this type of abuse. The DSL will ensure that online safety training covers online abuse, the importance of looking for signs of grooming, and what the signs of online grooming are, including:

- Being secretive about how they are spending their time.
- Having an older boyfriend or girlfriend, usually one that does not attend the school and whom their close friends have not met.
- Having money or new possessions, e.g. clothes and technological devices, that they cannot or will not explain.

### **Child sexual exploitation (CSE) and child criminal exploitation (CCE)**

Although CSE often involves physical sexual abuse or violence, online elements may be prevalent, e.g. sexual coercion and encouraging children to behave in sexually inappropriate ways through the internet. In some cases, a pupil may be groomed online to become involved in a wider network of exploitation, e.g. the production of child pornography or forced child prostitution and sexual trafficking.

CCE is a form of exploitation in which children are forced or manipulated into committing crimes for the benefit of their abuser, e.g. drug transporting, shoplifting and serious violence. While these crimes often take place in person, it is increasingly common for children to be groomed and manipulated into participating through the internet.

Where staff have any concerns about pupils with relation to CSE or CCE, they will bring these concerns to the DSL without delay, who will manage the situation in line with the Child Protection and Safeguarding Policy.

## Radicalisation

Radicalisation is the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups. This process can occur through direct recruitment, e.g. individuals in extremist groups identifying, targeting and contacting young people with the intention of involving them in terrorist activity, or by exposure to violent ideological propaganda. Children who are targets for radicalisation are likely to be groomed by extremists online to the extent that they believe the extremist has their best interests at heart, making them more likely to adopt the same radical ideology.

Staff members will be aware of the factors which can place certain pupils at increased vulnerability to radicalisation, as outlined in the Prevent Duty Policy. Staff will be expected to exercise vigilance towards any pupils displaying indicators that they have been, or are being, radicalised.

Where staff have a concern about a pupil relating to radicalisation, they will report this to the DSL without delay, who will handle the situation in line with the Prevent Duty Policy.

## 7. Mental health

The internet, particularly social media, can be the root cause of a number of mental health issues in pupils, e.g. low self-esteem and suicidal ideation.

Staff will be aware that online activity both in and outside of school can have a substantial impact on a pupil's mental state, both positively and negatively. The Mental Health Lead will ensure that training is available to help ensure that staff members understand popular social media sites and terminology, the ways in which social media and the internet in general can impact mental health, and the indicators that a pupil is suffering from challenges in their mental health. Concerns about the mental health of a pupil will be dealt with in line with the Social, Emotional and Mental Health (SEMH) Policy.

## 8. Online hoaxes and harmful online challenges

For the purposes of this policy, an “**online hoax**” is defined as a deliberate lie designed to seem truthful, normally one that is intended to scaremonger or to distress individuals who come across it, spread on online social media platforms.

For the purposes of this policy, “**harmful online challenges**” refers to challenges that are targeted at young people and generally involve users recording themselves participating in an online challenge, distributing the video through social media channels and daring others to do the same. Although many online challenges are harmless, an online challenge becomes harmful when it could potentially put the participant at risk of harm, either directly as a result of partaking in the challenge itself or indirectly as a result of the distribution of the video online – the latter will usually depend on the age of the pupil and the way in which they are depicted in the video.

Where staff suspect there may be a harmful online challenge or online hoax circulating amongst pupils in the school, they will report this to the DSL immediately.

The DSL will conduct a case-by-case assessment for any harmful online content brought to their attention, establishing the scale and nature of the possible risk to pupils, and whether the risk is one that is localised to the school or the local area, or whether it extends more widely across the country. Where the harmful content is prevalent mainly in the local area, the DSL will consult with the LA about whether quick local action can prevent the hoax or challenge from spreading more widely.

Prior to deciding how to respond to a harmful online challenge or hoax, the DSL and the headteacher will decide whether each proposed response is:

- In line with any advice received from a known, reliable source, e.g. the UK Safer Internet Centre, when fact-checking the risk of online challenges or hoaxes.
- Careful to avoid needlessly scaring or distressing pupils.
- Not inadvertently encouraging pupils to view the hoax or challenge where they would not have otherwise come across it, e.g. where content is explained to younger pupils but is almost exclusively being shared amongst older pupils.
- Proportional to the actual or perceived risk.
- Helpful to the pupils who are, or are perceived to be, at risk.
- Appropriate for the relevant pupils' age and developmental stage.
- Supportive.
- In line with the Child Protection and Safeguarding Policy.

Where the DSL's assessment finds an online challenge to be putting pupils at risk of harm, e.g. it encourages children to participate in age-inappropriate activities that could increase safeguarding risks or become a child protection concern, they will ensure that the challenge is directly addressed to the relevant pupils, e.g. those within a particular age range that is directly affected or even to individual children at risk where appropriate.

The DSL and headteacher will only implement a school-wide approach to highlighting potential harms of a hoax or challenge when the risk of needlessly increasing pupils' exposure to the risk is considered and mitigated as far as possible.

## 9. Cyber-crime

Cyber-crime is criminal activity committed using computers and/or the internet. There are two key categories of cyber-crime:

- **Cyber-enabled** – these crimes can be carried out offline; however, are made easier and can be conducted at higher scales and speeds online, e.g. fraud, purchasing and selling of illegal drugs, and sexual abuse and exploitation.
- **Cyber-dependent** – these crimes can only be carried out online or by using a computer, e.g. making, supplying or obtaining malware, illegal hacking, and 'booting', which means overwhelming a network, computer or website with internet traffic to render it unavailable.

The school will factor into its approach to online safety the risk that pupils with a particular affinity or skill in technology may become involved, whether deliberately or inadvertently, in cyber-crime. Where there are any concerns about a pupil's use of technology and their intentions with regard to using their skill and affinity towards it, the DSL will consider a referral

to the Cyber Choices programme, which aims to intervene where children are at risk of committing cyber-crime and divert them to a more positive use of their skills and interests.

The DSL and headteacher will ensure that pupils are taught, throughout the curriculum, how to use technology safely, responsibly and lawfully, and will ensure that pupils cannot access sites or areas of the internet that may encourage them to stray from lawful use of technology, e.g. the 'dark web', on school-owned devices or on school networks through the use of appropriate firewalls.

## **10. Online safety training for staff**

The DSL ensures that all safeguarding training given to staff includes elements of online safety, including how the internet can facilitate abuse and exploitation. All staff will be made aware that pupils are at risk of abuse, by their peers and by adults, online as well as in person, and that, often, abuse will take place concurrently via online channels and in daily life.

Information about the school's full responses to online safeguarding incidents can be found in the Anti-bullying Policy, the Child-on-child Abuse Policy and the Child Protection and Safeguarding Policy.

## **11. Online safety and the curriculum**

Online safety is embedded throughout the curriculum; however, it is particularly addressed in the following subjects:

- RHSE
- PSHE
- Citizenship
- ICT

Online safety teaching is always appropriate to pupils' ages and developmental stages.

Pupils are taught the underpinning knowledge and behaviours that can help them to navigate the online world safely and confidently regardless of the device, platform or app they are using. The underpinning knowledge and behaviours pupils learn through the curriculum include the following:

- How to evaluate what they see online
- How to recognise techniques used for persuasion
- What healthy and respectful relationships, including friendships, look like
- Body confidence and self-esteem
- Consent, e.g. with relation to the sharing of indecent imagery or online coercion to perform sexual acts
- Acceptable and unacceptable online behaviour
- How to identify online risks
- How and when to seek support
- How to identify when something is deliberately deceitful or harmful
- How to recognise when something they are being asked to do puts them at risk or is age-inappropriate

The online risks pupils may face online are always considered when developing the curriculum. The risks that are considered and how they are covered in the curriculum can be found in [appendix A](#) of this policy.

The DSL is involved with the development of the school's online safety curriculum. Pupils will be consulted on the online safety curriculum, where appropriate, due to their unique knowledge of the kinds of websites they and their peers frequent and the kinds of behaviours in which they engage online.

The school recognises that, while any pupil can be vulnerable online, there are some pupils who may be more susceptible to online harm or have less support from family and friends in staying safe online, e.g. pupils with SEND and LAC. Relevant members of staff, e.g. the SENCO and designated teacher for LAC, work together to ensure the curriculum is tailored so these pupils receive the information and support they need.

The school will also endeavour to take a more personalised or contextualised approach to teaching about online safety for more susceptible children, and in response to instances of harmful online behaviour from pupils.

Class teachers review external resources prior to using them for the online safety curriculum, to ensure they are appropriate for the cohort of pupils. When reviewing these resources, the following questions are asked:

- Where does this organisation get their information from?
- What is their evidence base?
- Have they been externally quality assured?
- What is their background?
- Are they age-appropriate for pupils?
- Are they appropriate for pupils' developmental stage?

External visitors may be invited into school to help with the delivery of certain aspects of the online safety curriculum. The headteacher and DSL decide when it is appropriate to invite external groups into school and ensure the visitors selected are appropriate.

Before conducting a lesson or activity on online safety, the class teacher and DSL consider the topic that is being covered and the potential that pupils in the class have suffered or may be suffering from online abuse or harm in this way. The DSL advises the staff member on how to best support any pupil who may be especially impacted by a lesson or activity. Lessons and activities are planned carefully so they do not draw attention to a pupil who is being or has been abused or harmed online, to avoid publicising the abuse.

During an online safety lesson or activity, the class teacher ensures a safe environment is maintained in which pupils feel comfortable to say what they feel and ask questions, and are not worried about getting into trouble or being judged.

If a staff member is concerned about anything pupils raise during online safety lessons and activities, they will make a report in line with the Child Protection and Safeguarding Policy.

If a pupil makes a disclosure to a member of staff regarding online abuse following a lesson or activity, the staff member will follow the reporting procedure outlined in the Child Protection and Safeguarding Policy.

## **12. Use of technology in the classroom**

A wide range of technology is used during lessons, including the following:

- Computers
- Laptops
- Tablets
- Intranet
- Email
- Cameras

Prior to using any websites, tools, apps or other online platforms in the classroom, or recommending that pupils use these platforms at home, the class teacher always reviews and evaluates the resource. Class teachers ensure that any internet-derived materials are used in line with copyright law.

Pupils are supervised when using online materials during lesson time – this supervision is suitable to their age and ability.

## **13. Use of smart technology**

While the school recognises that the use of smart technology can have educational benefits, there are also a variety of associated risks which the school will ensure it manages.

Pupils will be educated on the acceptable and appropriate use of personal devices and will use technology in line with the school's Acceptable Use Agreement for Pupils.

Staff will use all smart technology and personal technology in line with the school's staff Acceptable Use Agreement

The school recognises that pupils' unlimited and unrestricted access to the internet via mobile phone networks means that some pupils may use the internet in a way which breaches the school's acceptable use of ICT agreement for pupils.

Inappropriate use of smart technology may include:

- Using mobile and smart technology to sexually harass, bully, troll or intimidate peers.
- Sharing indecent images, both consensually and non-consensually.
- Viewing and sharing pornography and other harmful content.

Pupils will not be permitted to use smart devices or any other personal technology with internet or camera functionality during the school day.

Pupils will be permitted to bring mobile phones into school, but these must be switched off and handed to the class teacher on arrival. Devices will be stored securely in the office and then returned to pupils at the end of the day.

Where there is a significant problem with the misuse of smart technology among pupils, the school will discipline those involved in line with the school's Behaviour Policy.

The school will hold assemblies and workshops where appropriate, which address any specific concerns related to the misuse of smart technology and outline the importance of using smart technology in an appropriate manner.

The school will seek to ensure that it is kept up to date with the latest devices, platforms, apps, trends and related threats.

The school will consider the 4C's (content, contact, conduct and commerce) when educating pupils about the risks involved with the inappropriate use of smart technology and enforcing the appropriate disciplinary measures.

## **14. Educating parents**

The school works in partnership with parents to ensure pupils stay safe online at school and at home. Parents are provided with information about the school's approach to online safety and their role in protecting their children. Parents are sent a copy of the Acceptable Use Agreement at the beginning of each academic year and are encouraged to go through this with their child to ensure their child understands the document and the implications of not following it.

Parents will be made aware of the various ways in which their children may be at risk online, including, but not limited to:

- Child sexual abuse, including grooming.
- Exposure to radicalising content.
- Sharing of indecent imagery of pupils, e.g. sexting.
- Cyberbullying.
- Exposure to age-inappropriate content, e.g. pornography.
- Exposure to harmful content, e.g. content that encourages self-destructive behaviour.

Parents will be informed of the ways in which they can prevent their child from accessing harmful content at home, e.g., by implementing parental controls to block age-inappropriate content.

Parental awareness regarding how they can support their children to be safe online is raised in the following ways:

- Parents' evenings
- Our Monthly ICT newsletter
- Online resources

## **15. Internet access**

Pupils, staff and other members of the school community are only granted access to the school's internet network once they have read and signed the appropriate Acceptable Use Agreement.

A record is kept of users who have been granted internet access in the school office.

All members of the school community are encouraged to use the school's internet network, instead of 3G, 4G and 5G networks, as the network has appropriate filtering and monitoring to ensure individuals are using the internet appropriately.

## **16. Filtering and monitoring online activity**

The governing board ensures the school's ICT network has appropriate filters and monitoring systems in place. The governing board ensures 'over blocking' does not lead to unreasonable restrictions as to what pupils can be taught with regards to online teaching and safeguarding.

The headteacher and ICT technicians undertake a risk assessment to determine what filtering and monitoring systems are required. The filtering and monitoring systems the school implements are appropriate to pupils' ages, the number of pupils using the network, how often pupils access the network, and the proportionality of costs compared to the risks. ICT technicians undertake termly checks on the filtering and monitoring systems to ensure they are effective and appropriate.

Requests regarding making changes to the filtering system are directed to the headteacher. Prior to making any changes to the filtering system, ICT technicians and the DSL conduct a risk assessment. Any changes made to the system are recorded by ICT technicians. Reports of inappropriate websites or materials are made to an ICT technician immediately, who investigates the matter and makes any necessary changes.

Deliberate breaches of the filtering system are reported to the DSL and ICT technicians, who will escalate the matter appropriately. If a pupil has deliberately breached the filtering system, they will be disciplined in line with the Behaviour Policy. If a member of staff has deliberately breached the filtering system, they will be disciplined in line with the Disciplinary Policy and Procedure.

If material that is believed to be illegal is accessed, inadvertently or deliberately, this material will be reported to the appropriate agency immediately, e.g. the Internet Watch Foundation (IWF), CEOP and/or the police.

The school's network and school-owned devices are appropriately monitored. All users of the network and school-owned devices are informed about how and why they are monitored. Concerns identified through monitoring are reported to the DSL who manages the situation in line with the Child Protection and Safeguarding Policy.

## **17. Network security**

Technical security features, such as anti-virus software, are kept up-to-date and managed by ICT technicians. Firewalls are switched on at all times. ICT technicians review the firewalls on a weekly basis to ensure they are running correctly, and to carry out any required updates.

Staff and pupils are advised not to download unapproved software or open unfamiliar email attachments, and are expected to report all malware and virus attacks to ICT technicians.

All members of staff have their own unique usernames and private passwords to access the school's systems. Pupils in year 3 and above are provided with their own unique username. Staff members and pupils are responsible for keeping their passwords private. Passwords have a minimum and maximum length and require a mixture of letters, numbers and symbols to ensure they are as secure as possible.

Users inform ICT technicians if they forget their login details, who will arrange for the user to access the systems under different login details. Users are not permitted to share their login details with others and are not allowed to log in as another user at any time. If a user is found to be sharing their login details or otherwise mistreating the password system, the headteacher is informed and decides the necessary action to take.

Users are required to lock access to devices and systems when they are not in use.

## **18. Emails**

Access to and the use of emails is managed in line with the Data Protection Policy and Acceptable Use Agreement.

Staff and pupils are given approved school email accounts and are only able to use these accounts at school and when doing school-related work outside of school hours. Prior to being authorised to use the email system, staff and pupils must agree to and sign the appropriate Acceptable Use Agreement. Personal email accounts are not permitted to be used on the school site. Any email that contains sensitive or personal information is only sent using secure and encrypted email.

Staff members and pupils are required to block spam and junk mail and report the matter to ICT technicians. The school's monitoring system can detect inappropriate links, malware and profanity within emails – staff and pupils are made aware of this. Chain letters, spam and all other emails from unknown sources are deleted without being opened. Any cyber-attacks initiated through emails are managed in line with the Data and Cyber-security Breach Prevention and Management Plan.

## **19. Social networking**

### **Personal use**

Access to social networking sites is filtered as appropriate. Staff and pupils are not permitted to use social media for personal use during lesson time. Staff can use personal social media during break and lunchtimes; however, inappropriate or excessive use of personal social media during school hours may result in the removal of internet access or further action. Staff members are advised that their conduct on social media can have an impact on their role and reputation within the school. The Staff Code of Conduct contains information on the acceptable use of social media – staff members are required to follow these expectations at all times.

Staff receive an annual update on how to use social media safely and responsibly. Staff are not permitted to communicate with pupils or parents over social networking sites, nor are they permitted to comment on school matters. They are reminded to alter their privacy settings to ensure pupils and parents are not able to contact them on social media. Where staff have an

existing personal relationship with a parent or pupil, and thus are connected with them on social media, e.g., they are friends with a parent at the school, they will disclose this to the DSL and headteacher and will ensure that their social media conduct relating to that parent is appropriate for their position in the school.

Pupils are taught how to use social media safely and responsibly through the online safety curriculum.

Concerns regarding the online conduct of any member of the school community on social media are reported to the DSL and managed in accordance with the relevant policy, e.g. Antibullying Policy, Staff Code of Conduct and Behaviour Policy.

### **Use on behalf of the school**

The school's official social media channels are only used for official educational or engagement purposes. Staff members must be authorised by the headteacher to access to the school's social media accounts.

All communication on official social media channels by staff on behalf of the school is clear, transparent and open to scrutiny.

## **20. The school website**

The headteacher is responsible for the overall content of the school website – they will ensure the content is appropriate, accurate, up-to-date and meets government requirements.

The website complies with guidelines for publications including accessibility, data protection, respect for intellectual property rights, privacy policies and copyright law. Personal information relating to staff and pupils is not published on the website. Images and videos are only posted on the website if the provisions in the Photography Policy are met.

## **21. Use of devices**

### **School-owned devices**

Staff members are issued with the following devices to assist with their work:

- Laptop
- Tablet / I-Pads

Pupils are provided with school-owned devices as necessary to assist in the delivery of the curriculum, e.g. tablets to use during lessons.

School-owned devices are used in accordance with the Device User Agreement. Staff and pupils are not permitted to connect school-owned devices to public Wi-Fi networks. All school owned devices are password protected.. All school-owned devices are fitted with software to ensure they can be remotely accessed, in case data on the device needs to be protected, retrieved or erased.

ICT technicians review all school-owned devices regularly to carry out software updates and ensure there is no inappropriate material or malware on the devices. No software, apps or

other programmes can be downloaded onto a device without authorisation from ICT technicians.

Cases of staff members or pupils found to be misusing school-owned devices will be managed in line with the Staff Disciplinary Policy and Behaviour Policy respectively.

### **Personal devices**

Personal devices are used in accordance with the Staff ICT and Electronic Devices Policy and the Pupils' Personal Electronic Devices Policy. Any personal electronic device that is brought into school is the responsibility of the user.

Personal devices are not permitted to be used in the following locations:

- Toilets

Staff members are not permitted to use their personal devices during lesson time, other than in an emergency. Staff members are not permitted to use their personal devices to take photos or videos of pupils.

Staff members report concerns about their colleagues' use of personal devices on the school premises in line with the Allegations of Abuse Against Staff Policy. If a member of staff is thought to have illegal content saved or stored on a personal device, or to have committed an offence using a personal device, the headteacher will inform the police and action will be taken in line with the Allegations of Abuse Against Staff Policy.

Pupils are not permitted to use their personal devices during the school day. If a pupil needs to contact their parents during the school day, they are allowed to use the phone in the school office. The headteacher may authorise the use of mobile devices by a pupil for safety or precautionary use.

Where a pupil uses accessibility features on a personal device to help them access education, e.g. where a pupil who is deaf uses their mobile phone to adjust the settings on an internal hearing aid in response to audible stimuli during class, the arrangements and rules for conduct for this are developed and managed on a case-by-case basis.

Appropriate signage is displayed to inform visitors to the school of the expected use of personal devices. Any concerns about visitors' use of personal devices on the school premises are reported to the DSL.

## **22. Remote learning**

The school will risk assess the technology used for remote learning prior to use and ensure that there are no privacy issues or scope for inappropriate use. The school will consult with parents prior to the period of remote learning about what methods of delivering remote teaching are most suitable – alternate arrangements will be made where necessary.

The school will ensure that all school-owned equipment and technology used for remote learning has suitable anti-virus software installed, can establish secure connections, can recover lost work, and allows for audio and visual material to be recorded or downloaded, where required.

During the period of remote learning, the school will maintain regular contact with parents to:

- Reinforce the importance of children staying safe online.
- Ensure parents are aware of what their children are being asked to do, e.g. sites they have been asked to use and staff they will interact with.
- Encourage them to set age-appropriate parental controls on devices and internet filters to block malicious websites.
- Direct parents to useful resources to help them keep their children safe online.

The school will not be responsible for providing access to the internet off the school premises and will not be responsible for providing online safety software, e.g. anti-virus software, on devices not owned by the school.

## **23. Monitoring and review**

The school recognises that the online world is constantly changing; therefore, the DSL, ICT technicians and the headteacher conduct termly light-touch reviews of this policy to evaluate its effectiveness.

The governing board, headteacher and DSL review this policy in full on an annual basis and following any online safety incidents.

The next scheduled review date for this policy is September 2024.

Any changes made to this policy are communicated to all members of the school community.

Appendix 1:

## Pupil Acceptable Use Policy Agreement (Foundation/KS1)

### **This is how we stay safe when we use computers:**

- I will ask a teacher or suitable adult if I want to use the computers
- I will only use activities that a teacher or suitable adult has told or allowed me to use
- I will take care of the computer and other equipment
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong
- I will tell a teacher or suitable adult if I see something that upsets me on the screen
- I know that if I break the rules I might not be allowed to use a computer.

## Pupil Acceptable Use Policy Agreement – KS2

### School Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

#### **This Acceptable Use Policy is intended to ensure:**

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The school will try to ensure that pupils will have good access to digital technologies to enhance their learning and will, in return, expect the pupils to agree to be responsible users.

### Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users.

#### **For my own personal safety:**

- I understand that the school will monitor my use of the systems, devices and digital communications
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it
- I will be aware of "stranger danger", when I am communicating on-line
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc)
- If I arrange to meet people off-line that I have communicated with on-line, I will do so in a public place and take an adult with me
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line.

#### **I understand that everyone has equal rights to use technology as a resource and:**

- I understand that the school systems and devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work

**I will act as I expect others to act toward me:**

- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions
- I will not take or distribute images of anyone without their permission.

**I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school:**

- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering systems in place to prevent access to such materials
- I will immediately report any damage or faults involving equipment or software, however this may have happened
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings

**When using the internet for research or recreation, I recognise that:**

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

**I understand that I am responsible for my actions, both in and out of school:**

- I understand that the school also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyber-bullying, use of images or personal information)
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I will be subject to disciplinary action. This may include loss of access to the school network/internet, contact with parents and in the event of illegal activities involvement of the police.

**Please complete the sections on the next page to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school systems and devices.**

# Pupil Acceptable Use Agreement Form

This form relates to the pupil Acceptable Use Agreement, to which it is attached. Please complete the sections below to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school ICT systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own equipment out of the school in a way that is related to me being a member of this school, eg communicating with other members of the school, accessing school email, website etc.

Name of Pupil:

Class:

Appendix 3:

# Parent/Carer Acceptable Use Policy Agreement

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should always have an entitlement to safe internet access.

## **This Acceptable Use Policy is intended to ensure:**

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk
- that parents and carers are aware of the importance of e-safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that pupils will have good access to digital technologies to enhance their learning and will, in return, expect the pupils to agree to be responsible users. A copy of the Pupil Acceptable Use Policy is attached to this permission form, so that parents will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

## Permission Form

Parent/Carers Name:

Pupil Name :

As the parent/carers of the above pupils, I give permission for my child to have access to the internet and to ICT systems at school.

Either: (KS2 and above)

I know that my child has signed an Acceptable Use Agreement and has received, or will receive, e-safety education to help them understand the importance of the safe use of technology and the internet – both in and out of school.

Or: (KS1)

I understand that the school has discussed the Acceptable Use Agreement with my child and that they have received, or will receive, e-safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and ICT systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my child's activity on the ICT systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the Acceptable Use Policy.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's e-safety.

## Staff (and Volunteer) Acceptable Use Policy Agreement

### **This Acceptable Use Policy is intended to ensure:**

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use
- that school ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk
- that staff are protected from potential risk in their use of ICT in their everyday work

The school will try to ensure that staff and volunteers will have good access to ICT to enhance their work, to enhance learning opportunities for pupils learning and will, in return, expect staff and volunteers to agree to be responsible users.

## Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that pupils receive opportunities to gain from the use of ICT. I will, where possible, educate the young people in my care in the safe use of ICT and embed e-safety in my work with young people.

### **For my professional and personal safety:**

- I understand that the school will monitor my use of the ICT systems, email and other digital communications
- I understand that the rules set out in this agreement also apply to use of school ICT systems (eg laptops, email etc) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school ICT systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

### **I will be professional in my communications and actions when using school ICT systems:**

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions

- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images
- I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website) it will not be possible to identify by name, or other personal information, those who are featured
- I will only communicate with pupils and parents/carers using official school systems. Any such communication will be professional in tone and manner
- I will not engage in any on-line activity that may compromise my professional responsibilities.

**The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:**

- When I use my mobile devices (PDAs/laptops/mobile phones/USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use
- I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering systems in place to prevent access to such materials
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings
- I will not disable or cause any damage to school equipment, or the equipment belonging to others
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School/LA Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based Protected and Restricted data must be held in lockable storage
- I understand that data protection policy requires that any staff or pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

**When using the internet in my professional capacity or for school sanctioned personal use:**

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

**I understand that I am responsible for my actions in and out of the school:**

- I understand that this Acceptable Use Policy applies not only to my work and use of school ICT equipment in school, but also applies to my use of school ICT systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and/or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.
