

Physical Development

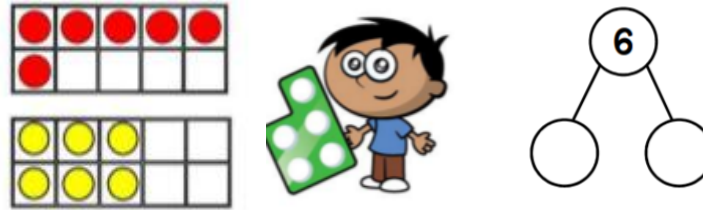

In our PE sessions this term we will be continuing with our gymnastics, and learning a "Frozen" dance. With Mr Shipley we will be taking part in multiskills sessions outside. We will also be doing daily handwriting practice.

Communication & Language, Reading and Writing

Through daily story times we will develop our "book talk" skills. We will practise asking and answering questions about stories. We will continue with our daily phonic teaching with a focus on blending and segmenting the new sounds we have learnt. We will be writing simple words and sentences using our phonic knowledge, and listen to a variety of stories linked to our penguin and polar bear topic.

Mathematical Development

In Maths we are going to begin the term by exploring ways of making 5 in more detail, then we will be representing, comparing and exploring the composition of the numbers 6, 7 and 8. We will also explore the mass of different objects, comparing heaviest and lightest using balance scales.

Understanding the World

We will be learning about melting and freezing different liquids such as ketchup, water and mustard – we will compare which can be frozen and which melt the quickest. We will learn about The Arctic and Antarctica and find out which animals live in which place. We will think about what an explorer would need for a trip to Antarctica. We will also learn about Chinese New Year and how it is celebrated.

PSED

In PSED we follow the Jigsaw theme, this term our theme is Dreams and Goals

RE

Our RE question is How do people celebrate?
Our whole school value is Joy

Expressive Arts and Design

We will be creating different effects using a variety of materials. We will be making collages, exploring colour mixing and learning how to create different textures using a sketching pencil.

Special events:

Welly walks –
22.1.24
5.2.24

5.2.24 – Children's mental health week
